

*FABSCO'S engineering staff stands ready to assist our customers with air cooled heat transfer solutions. To assist our well qualified staff, we are members of "TEMA, H.T.R.I. and ASME." Our engineering department uses H.T.R.I.'s "ACE" and also "ACX" for thermal design. FABSCO uses proprietary parametric software for designing structures.*

*At the heart of FABSCO is our production force, many of which have been with FABSCO since it's beginning.*

*Our technology and experience have made FABSCO a leader in Air Coolers.*
